

ENBDC Meeting **April 13 -15, 2012** Weggis, Switzerland
PRELIMINARY Scientific Program

Friday, April 13th, 2012

Keynote: Mina Bissell (USA): Designing 3-dimensional models to study tissue specificity and breast cancer

Session 1: *Proteomics: Chair: Marina Glukhova*

- a. **Bernd Bodenmiller** (Switzerland): Mass cytometry to comprehensively study single cell signaling in biology and disease
- b. **Arzu Umar** (The Netherlands): Identification of a prognostic protein profile for triple negative breast cancer

Session 2: *Epigenetics: Chair: Nancy Hynes*

- a. **Toni Hurtado** (Norway): Cooperative transcription factors regulate estrogen receptor function and endocrine response
- b. **Heidi Dvinge** (UK): Measuring microRNA expression: A cross-platform comparison of sensitivity and specificity
- c. Short Talk (selected from the abstracts)
- d. Short Talk (selected from the abstracts)

Poster Session 1:

Saturday, April 14th, 2012

Acknowledgement of sponsors: Maria Vivanco, Momo Bentires-Alj

Session 3: *Symmetric division: Chair: Maria Vivanco*

- a. **Salvatore Pece** (Italy): Stem cells and breast cancer: clinical and pathogenetic implications
- b. **Ben Simons** (UK): Strategies of stem cell self-renewal in adult tissues
- c. Short Talk (selected from the abstracts)
- d. Short Talk (selected from the abstracts)

Organized Activity

Poster Session 2:

ENBDC Meeting **April 13 -15, 2012** Weggis, Switzerland
PRELIMINARY Scientific Program

Sunday, April 15th, 2012

Session 4: *Metastasis: Chair: Momo Bentires-Alj*

- a. **Keltouma Driouch** (France): From clinical to experimental studies to unravel breast cancer metastasis
- b. **Dan Medina** (USA): A new approach to examining the premalignant to malignant progression
- c. Short Talk (selected from the abstracts)
- d. Short Talk (selected from the abstracts)
